

## WILSON'S LAST MESSAGE

### TO THE AMERICAN PEOPLE AND THE CONGRESS IN SESSION.

Our Great President is Greatest in Knowing How to Lose and Facing Conditions Ahead.

Men are great as they know how to lose. The man who gave the world a vision of peace along democratic lines of our western civilization and was awarded this week the Noble prize of Sweden of \$40,000 for the greatest contribution to the peace of the world, has written a great message to the nation, with not a word as to that which was lost, but of conditions ahead facing the nation, which must be lost. Here is the last message of one of the greatest Americans who has ever lived, which every American should delight to read:

When I addressed myself to performing the duty laid upon the President by the Constitution to present to you an annual report on the state of the Union, I found my thought dominated by an immortal sentence of Abraham Lincoln's, "Let us have faith that right makes might, and in that faith let us dare to do our duty as we understand it"—a sentence immortal because it embodies in a form of utter simplicity and purity the essential faith of the nation, the faith in which it was conceived and the faith in which it has grown to glory and power.

With that faith and the birth of a nation, founded upon it, came the hope into the world that a new order would prevail throughout the affairs of mankind, an order in which reason and right would take precedence of covetousness and force, and I believe that I express the wish and purpose of every thoughtful American when I say that this sentence marks for us in the plainest manner the part we should play alike in the arrangement of our domestic affairs and in our exercise of influence upon the affairs of the world.

By this faith, and by this faith alone, can the world be lifted out of its present confusion and despair. It was this faith which prevailed over the wicked force of Germany. You will remember that the beginning of the end of the war came when the German people found themselves face to face with the conscience of the world and realized that right was everywhere arrayed against the wrong that their government was attempting to perpetuate. I think, therefore, that it is true to say that this was the faith which won the war. Certainly this is the faith with which our gallant men went into the field and out upon the seas to make sure of victory.

### Democracy on Test To-day.

This is the mission upon which democracy came into the world. Democracy is an assertion of the right of the individual to live and to be treated justly as against any attempt on the part of any combination of individuals to make laws, which will overburden him or which will destroy his equality among his fellows in the matter of right or privilege, and I think we all realize that the day has come when democracy is being put upon its final test.

The old world is just now suffering from a wanton rejection of the principle of democracy and a substitution of the principle of autocracy as asserted in the name but without the authority and sanction of the multitude. This is the time of all others when democracy should prove its purity and its spiritual power to prevail. It is surely the manifest destiny of the United States to lead in the attempt to make this spirit prevail.

There are two ways in which the United States can assist to accomplish this great object:

First, by offering the example within her own borders of the will and power of democracy to make and enforce laws which are unquestionably just and which are equal in their administration—laws which secure its full right to labor and yet at the same time safeguard the integrity of property, and particularly of that property which is devoted to the development of industry and the increase of the necessary wealth of the world.

The law of democracy is for the protection of the weak, and the influence of every democracy in the world should be for the protection of the weak nations, the nation which is struggling toward its right and toward its proper recognition and privilege in the family of nations.

The United States cannot refuse this role of champion without putting the stigma of rejection upon the great and devoted men who brought its Government into existence and established it in the face of almost universal opposition and intrigue, even in the face of wanton force, as, for example, against the orders in the Council of Great Britain and the arbitrary Napoleonic decrees which involved us in what we know as the war of 1812.

I urge you to consider that the display of an immediate disposition on the part of the Congress to remedy any injustices or evils that may have shown themselves in our own national life will afford the most effective offset to the forces of chaos and tyranny which are playing so disastrous a part in the fortunes of the

free peoples of more than one part of the world. The United States is of necessity, the sample democracy of the world, and the triumph of democracy depends upon its success.

### Urges Passage of Budget Bill.

Recovery from the disturbing and sometimes disastrous effects of the late war has been exceedingly slow on the other side of the water and has given promise, I venture to say, of early completion only in our own fortunate country; but even with us the recovery halts and is impeded at times and there are immediately serviceable acts of legislation which it seems to me we ought to attempt, to assist that recovery and prove the indestructible recuperative force of a great Government of the people.

One of these is to prove that a great democracy can keep house as successfully and in as businesslike a fashion as any other Government. It seems to me that the first step toward providing this is to supply ourselves with a systematic method of handling our estimates and expenditures and bringing them to the point where they will not be a unnecessary strain upon our income or necessary unreasonable taxation, in other words, a workable budget system, and I respectfully suggest that two elements are essential to such a system; namely, not only that the proposal of appropriations should be in the hands of a single body, such as a single appropriations committee in each house of the Congress, but also that this body should be brought into such co-operation with the departments of the Government and with the Treasury of the United States as would enable it to act upon a complete conspectus of the needs of the Government and the resources from which it must draw its income.

I reluctantly vetoed the Budget bill passed by the last session of the Congress because of a constitutional objection. The House of Representatives subsequently modified the bill in order to meet this objection. In the revised form I believe that the bill, coupled with action already taken by the Congress to revise its rules and procedure, furnishes the foundations for an effective national budget system. I earnestly hope, therefore, that one of the first steps taken by the present session of the Congress will be to pass the Budget bill.

### Improvement in National Finances.

The nation's finances have shown marked improvement during the last year. The total ordinary receipts of \$6,694,000,000 for the fiscal year 1920 exceed those for 1919 by \$1,542,000,000, while the total net ordinary expenditures decreased from \$18,574,000,000 to \$6,403,000,000. The gross public debt which reached its highest point on Aug. 31, 1919, when it was \$26,396,000,000, had dropped on Nov. 30, 1920, to \$24,175,000,000.

There has also been marked decrease in holdings of Government war securities by the banking institutions of the country, as well as in the amount of bills held by the Federal Reserve Banks secured by Government war obligations. This fortunate result has relieved the banks and left them freer to finance the needs of agriculture, industry and commerce. It has been due in large part to the reduction of the public debt, especially of the floating debt, but more particularly to the improved distribution of Government securities among permanent investors.

The cessation of the Government's borrowings except through the short-term certificates of indebtedness has been a matter of great consequence to the people of the country at large, as well as to the holder of Liberty bonds and Victory notes, and has had an important bearing on the matter of effective credit control.

The year has been characterized by the progressive withdrawal of the Treasury from the domestic credit market and from a position of dominant influence in that market. The future course will necessarily depend upon the extent to which economies are practiced and upon the burdens placed upon the Treasury, as well as upon industrial developments and the maintenance of tax receipts at a sufficiently high level.

### Need of Watchful Economy.

The fundamental fact which at present dominates the Government's financial situation is that seven and a half billions of its war indebtedness mature within the next two and a half years. Of this amount two and a half billions are floating debt and five billions Victory notes and War Savings Certificates. The fiscal program of the Government must be determined with reference to these maturities.

Sound policy demands that the Government expenditures be reduced to the lowest amount which will permit the various services to operate efficiently, and that Government receipts from taxes and salvage be maintained sufficiently high to provide for current requirements, including interest and sinking fund charges on the public debt, and at the same time retire the floating debt and part of the Victory loan before maturity, with rigid economy, vigorous savings operations and adequate revenues from taxation, a surplus of current receipts over current expenditures can be realized and should be applied to the floating debt. All branches of the Government should co-operate to see that this program is realized.

I cannot overemphasize the necessity of economy in Government appropriations and expenditures and the avoidance by the Congress of practices which take money from the

Treasury by indefinite or revolving fund appropriations. The estimates for the present year show that over a billion dollars of expenditures were authorized by the last Congress in addition to the amounts shown in the usual compiled statements of appropriations. This strikingly illustrates the importance of making direct and specific appropriations.

The relation between the current receipts and current expenditures of the Government during the present fiscal year, as well as during the last half of the fiscal year, has been disturbed by the extraordinary burdens thrown upon the Treasury by the Transportation act, in connection with the return of the railroads to private control. Over \$600,000,000 has already been paid to the railroads under this act, \$350,000,000 during the present fiscal year, and it is estimated that further payments, aggregating possibly \$650,000,000, must still be made to the railroads during the current year. It is obvious that these large payments have already seriously limited the Government's progress in retiring the floating debt.

### Wants Income Tax Revised.

Closely connected with this, it seems to me, is the necessity for an immediate consideration of the revision of our tax laws. Simplification of the income and profits taxes has become an immediate necessity.

These taxes performed an indispensable service during the war. The need for their simplification however, is very great, in order to save the taxpayer inconvenience and expense and in order to make this liability more certain and definite. Other and more detailed recommendations with regard to taxes will no doubt be laid before you by the Secretary of the Treasury and the Commissioner of Internal Revenue.

It is my privilege to draw to the attention of Congress for very sympathetic consideration the problem of providing adequate facilities for the care and treatment of former members of the military and naval forces who are sick or disabled as the result of their participation in the war. These heroic men can never be paid in money for the service they patriotically rendered the nation. Their reward will lie rather in realization of the fact that they vindicated the rights of their country and aided in safeguarding civilization.

The nation's gratitude must be effectively revealed to them by the most ample provision for their medical care and treatment as well as for their vocational training and placement. The time has come when a more complete program can be formulated and more satisfactorily administered for their treatment and training, and I earnestly urge that the Congress give the matter its early consideration. The Secretary of the Treasury and the Board of Vocational Education will outline in their annual reports proposals covering medical care and rehabilitation which I am sure will engage your earnest study and command your most generous support.

### Some Immediate Problems.

Permit me to emphasize once more the need for action upon certain matters upon which I dwell at some length in my message to the second session of the Sixty-sixth Congress. The necessity, for example, of encouraging the manufacture of dyestuffs and related chemicals: the importance of doing everything possible to promote agricultural production along economic lines, to improve agricultural marketing and to make rural life more attractive and healthful; the need for a law regulating cold storage in such a way as to limit the time during which goods may be kept in storage, prescribing the method of disposing of them, if kept beyond the permitted period, and requiring goods, released from storage, in all cases to bear the date of their receipt. It would also be most serviceable if it were provided that all goods, released from cold storage for interstate shipment, should have plainly marked upon each package the selling or market price at which they went into storage, in order that the purchaser might be able to learn what profits stood between him and the producer or the wholesale dealer. Indeed, it would be very serviceable to the public if all goods destined for interstate commerce were made to carry upon every packing case whose form made it possible, a plain statement of the price at which they left the hands of the producer. I respectfully call your attention, also, to the recommendations of the message, referred to, with regard to a Federal license for all corporations engaged in interstate commerce.

In brief, the immediate legislative need of the time is the removal of all obstacles to the realization of the best ambitions of our people in their several classes of employment and the strengthening of all instrumentalities by which difficulties are to be met and removed and justice dealt out, whether by law or by some form of mediation and conciliation. I do not feel it to be my privilege at present to suggest the detailed and particular methods by which these objects may be attained, but I have faith that the inquiries of your several committees will discover the way and the method.

### Loan to Armenia—Free Philippines.

In response to what I believe to be the impulse of sympathy and opinion throughout the United States, I earnestly suggest that the Congress authorize the Treasury of the United States to make to the struggling Government of Armenia such a loan as (Continued on page 2.)

Whereas, we believe that the maintenance of an optional course in military training in Pennsylvania College is in a very special sense her patriotic duty situated as she is on the great battlefield of Gettysburg and because of the glorious records her sons have in the past made in the armed conflicts in which our country has been engaged. Be it therefore

Resolved, that the R. O. T. C. be continued and that we heartily commend the course to the students of our college asking them as well as members of the college faculty to give it their full and wholehearted support.

It would be well for the promotion of physical manhood that the two first years should not be elective and that all students be required to take the same unless excused by the physical director.

### To Start New Y. M. C. A. Building.

A resolution presented to the board by the Woman's League of Pennsylvania College asking that permission be given to them to proceed with the erection of the Weidensall Y. M. C. A. building on the college campus was granted by the trustees. The board was informed the construction of the building would be commenced in the spring and pushed through to completion. The board at a previous meeting approved the plans presented by the league.

Upon the advice of a committee of faculty members the board decided to increase the fees and tuition from \$125 to \$150 a year. The new tuition rate will include a lecture course, more funds for the debating and oratorical work and a subscription for each student to the Gettysburgian. Requests for addition in fees to finance these features of the college course were presented to the student body.

as was made to several of the allied Governments during the war; and I would also suggest that it would be desirable to provide in the legislation itself that the expenditure of the money thus loaned should be under the supervision of a commission, or at least a Commissioner, from the United States, in order that revolutionary tendencies within Armenia itself might not be afforded by the loan a further tempting opportunity.

Allow me to call your attention to the fact that the people of the Philippine Islands have succeeded in maintaining a stable Government since the last action of the Congress in their behalf, and have thus fulfilled the condition, set by the Congress, as precedent to a consideration of granting independence to the islands. I respectfully submit that this condition precedent having been fulfilled, it is now our liberty and our duty to keep our promise to the people of those islands by granting them the independence which they so honorably covet.

I have not so much laid before you a series of recommendations, gentlemen, as sought to utter a confession of faith, of the faith in which I was bred and which it is my solemn purpose to stand by until my last fighting day.

I believe this to be the faith of America, the faith of the future and of all the victories which await national action in the days to come, whether in America or elsewhere.

By Dr. E. L. M. Bristol

Calling, calling Carrie,  
Alone I grieve and sigh,  
Rise! and come again to me,  
Rich in your gracious beauty.  
In every breath I hear your voice,  
E'en every whisper speaks of thee.  
Vainly, vainly the tear and sigh,  
But I somehow know in the land afar  
Acclaims another star.  
Wings! that I might fly  
Down the aisle of wistful years,  
E'en to the end I wish for thee,  
Night and day sing ceaselessly.

**Catarrhal Deafness Cannot Be Cured** by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running ear, or perfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous membrane. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the ear.

## Clean Up Poison Soaked Kidneys Advises Dr. Carey

Thousands Die Every Year Because They Allow Poisonous Deposits to Accumulate in Kidneys.

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat them rough.

For 40 years I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessings of life and health.

If you have specks floating before the eyes, puffs under eyes, clammy feet or moist palms, headache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away.

It has conquered thousands of cases of kidney and bladder diseases and is the medicine you can always depend upon.

**IMPORTANT**—Dr. Daniel G. Carey has been a practicing physician for many years and his great prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients.

### A GETTYSBURG INTERVIEW.

**Mrs. Gilbert Tells Her Experience.**

The following brief account of an interview with a Gettysburg woman six years ago, and its sequel will be read with keen interest by every citizen.

Mrs. Mary A. Gilbert, 128 W. Middle St., says: "My health was in a bad condition for some time, caused by disordered kidneys. I wasn't able to sleep much and what rest I did get didn't seem to refresh me. My back and head ached and frequently I'd get dizzy spells and chills. When I caught cold, these symptoms became worse. One of the family advised me to get Doan's Kidney Pills and I bought a supply at the People's Drug Store. Doan's certainly do just as advertised, for they gave me prompt relief in every way and I gladly endorse them."

### OVER SIX YEARS LATER.

Mrs. Gilbert added: "My opinion of Doan's Kidney Pills hasn't changed, and I can recommend them as highly as ever. Doan's never fail to give the desired results, so I gladly back up my former statements."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gilbert had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

# For a Merry Christmas

**G. W. Weaver & Son**  
Dry Goods and Department Store

Gettysburg, Pa.

It Seems as Though the Whole World Just Lived for Christmas!

It is the one glorious day of all the year—the day made sacred to Happiness.

Everybody looks forward to Christmas, for months, and one month of the year is practically given over to preparations for its enjoyment.

The little folks are radiant with expectations, and grown-ups bubble over with eager anticipations.

We all love to receive things; but how infinitely greater is the joy of GIVING THINGS and seeing the delight of those who receive them from us.

That is why Christmas means so much to the world. Once every year, at least, we bring our offerings to the altar of UNSELFISHNESS.

All year we may strive and struggle for our own aims and benefits, and we might come to think that getting was the only happiness. But Christmas comes, and we are delighted to find the vastly greater joy of giving.

How mightily the Christmas spirit adds to the value of the things that a few dollars will buy—for after all, it is the thought and the good will that go with the gift that create the happiness that it gives.

The gift is only the vehicle of the Christmas message, and in providing the vehicle for your kind expressions, we render a valuable service at this time.

With a Complete Stock of everything usually found in a Dry Goods Department Store—Rightly Priced Too.

### ARENDTSTOWN.

Rev. Isaiah B. Crist who spent the former part of his life here in this locality, but who now resides in St. Thomas, Franklin county, made a short call here several days ago among relatives and then went to New Jersey to spend some time in the family of his son there. He retired in the evening as usual and when he did not answer the call for breakfast in the morning his door was opened and the room was filled with coal gas and he lay on the bed unconscious from the effects of the gas and it took two doctors several hours before he was revived.

Dr. Samuel E. Lower and Dr. Thomas, of Pittsburgh, came to the home of Heber S. Lower who took them to the Arendtstown deer camp to hunt deer.

Messrs. Cameron, Crum, Luther Raffensperger and James Crum each shot a buck deer. They belong to the Arendtstown Camp.

There is still quite a bit of corn to husk and many bushels of apples are going to loss as there was a scarcity of hands to pick them.

### World War Veteran a Suicide.

Using a stocking garter as a noose, Stewart C. Russell, aged 37 years, a World War veteran, committed suicide at the home of his wife's parents, Mr. and Mrs. Sanford C. Metz, near Orrtanna, last Saturday night. Worry over continued ill health is believed to have been the cause for the deed.

Russell, who had served overseas during the war and won his lieutenant's commission on the day of the armistice, had left the family only twenty minutes before his wife found the dead body lying on the bed, the garter around his neck and fastened to an army belt which he had flung over the bedpost.

His home was in Pontiac, Mich. He was in Camp Colt, Gettysburg, in 1917, and married Miss Gladys Metz, an Adams county school teacher at that time. After his return from the war the Red Cross had been interested in his condition and he had been promised an operation in the hope that it would relieve his suffering. A military funeral was held on Wednesday with interment in Mount Carmel Cemetery above Orrtanna.

# The Wished-for Gift

## X-MAS IS COMING

Happiest words of the whole year--to the smallest child that can understand them--to the dearest old grandmother who can hear them, and to every other whole-hearted human being between.

Never was a brighter Christmas in prospect than this one. The war has gone farther in the past, and the evils it left behind are passing away.

What a happy thought it is going to be, when we are puzzling over gifts for friends, to realize that this Christmas money will buy so much more than it would a short time ago--more quality and quantity. More happiness for friends--may now be bought with every dollar that is spent.

### Our Christmas Store Invites You

It never was more interesting, for its array of Gift-Things, or for the attractiveness of the prices. This is going to be a year of sensible, practical gifts. That has been the wholesome tendency for years, and we have provided abundantly for those who wish to buy sensible, practical gift-things.

Every section of our store is filled with them, and you will be delighted with what we have to show you. But there will always be friends for whom the less practical are desired--the things that one may count it extravagant to buy for oneself, but which one is so delighted to receive on Christmas morning. These too are here in gratifying variety.

In every Section of Our Store the new lower prices rule. Many goods have been newly bought, on the lower basis,--others we have reduced in price at once--based on the new market values, regardless of our loss. Hence new lower prices on every article in our stock.
